Aspen Evergreen™ 621 SI Belt (SI Belt) - L0621

The Aspen Evergreen™ 621 SI belt is a low-profile and lightweight brace designed to relieve SI dysfunction and provide sacrum stabilization.

Aspen Horizon™ 456 TLSO (Thoracic Lumbar Sacral Orthosis) - L0457

Aspen's Horizon™ 456 TLSO is designed to help restore patients to a functional position which relieves pressure on the back muscles, improves balance, opens neuro pathways and increases vital capacity, providing pain therapy that enables a patient to return to a more active daily life.

Aspen OTS™ LSO 650 (Back Brace) - L0650

The Aspen OTS™ LSO 650 offers clinically proven technology for patients experiencing low back pain. This drug-free solution combines the needed level of support and direct independent compression to promote effective pain therapy, enabling patients to regain activities of daily living.

Aspen Peak Scoliosis Bracing System™ (Scoliosis Brace) - L1005

Aspen's award-winning Peak Scoliosis Bracing System™ was designed specifically for Adult Scoliosis patients and has been shown to specifically reduce pain, increase mobility, promote better posture and improve quality of life.

Össur Formfit® Ankle Brace w/ SpeedLace (Ankle Brace) - L1902

The Formfit® Ankle Brace with SpeedLace provides stability and protection for the ankle — whether used prophylactically, for chronic instability or following an injury. Made from durable materials, its low-profile, quick-lace design is comfortable and fits easily into shoes. Removable semi-rigid stays provide additional support, and the Figure 8 straps are designed for inversion/eversion control.

Össur Formfit® Night Splint Posterior (Plantar Fasciitis Night Splint) - L4396

The Formfit® Night Splint, designed to help relieve the pain associated with plantar fasciitis by providing a gentle overnight stretch.

Össur Unloader One® (Unloader Knee Brace) - L1851

Unloader One® is a comfortable, lightweight, low-profile brace that provides excellent suspension and unloading leverage. The Unloader One® reduces pain, improves function and decreases the use of pain medication.

Össur Formfit® Thumb Spica 8" (Thumb Spica) - L3809

The Formfit® Thumb Spica is designed to restrict wrist and thumb motion. It provides immobilization and protection for patients suffering from tendinitis and select soft tissue injuries — including mild to moderate sprains and strains — as well as for post-cast healing.

Össur Formfit® Wrist Brace 8" (Wrist Brace) - L3908

The Formfit® Wrist Brace provides immobilization and protection for patients suffering from tendinitis and select soft tissue injuries — including mild to moderate sprains and strains — as well as for post-cast healing. The lightweight, breathable material and contour fit make this comfortable product an excellent choice.

Össur Rebound ROM Knee Brace (Hinged Knee Brace) - L1833

The knee brace provides extra stability by providing knee joint stability, protection and compression. This brace is designed to treat mild or moderate ligament pain as well as sprains and strains of the knee.

Össur Unloader® Hip Brace (Hip Brace) - L1690

The Unloader® Hip Brace is designed to reduce pain by optimizing load dispersion and proprioceptive control for patients suffering from mild to moderate hip osteoarthritis (OA), thus contributing to hip stability and improved mobility.

TENS Unit - E0730

A transcutaneous electrical nerve stimulation (TENS) unit is a device that sends low-voltage electrical currents to targeted body parts. These currents are used to relieve pain.

Vista® MultiPost Therapy Collar (Cervical Therapy Collar) - L0180

Poor neck posture is a growing problem often caused by the increased use of computers and cell phones. Used in the comfort of your home, Aspen's revolutionary Vista® MultiPost Therapy Collar is designed to help re-establish a more natural alignment to aid in reducing the symptoms associated with poor neck posture.

Vista® TX Collar (Cervical Collar) - L0174

Theratracc Cervical Traction (Cervical Traction) - E0849

The Vista® TX Collar is designed to help restrict flexion, extension, lateral bending and axial rotation. The Theratracc Cervical Traction device is designed to relieve discomfort in the neck and shoulder area that is caused by cervical and/or spinal disc abnormality. It can help relieve pressure on the disc, help ease the pain, and relax the muscles to provide relief.
